blisswood designs

formerly dba Woodcutts Inc.

Our story begins with a passion for craftsmanship and a belief that beautiful design should be accessible to everyone.

Founder John Murphree spent more than 40 years as a designer and craftsman. In 2001, he noticed that much of the jewelry available in stores lacked creativity and thoughtful design, while quality pieces came with a premium price tag. Inspired to change that, John combined his design expertise with his woodworking skills to create a fresh approach to wood jewelry. He created Willow, our original wood earring collection, and the first of its kind in the United States. Made from real hardwood veneers, Willow quickly became known for its organic beauty, exceptional craftsmanship, and remarkably lightweight feel.

As Willow grew, we introduced Twig, a smaller, more delicate interpretation of the original Willow designs, accented with silver to beautifully complement the natural wood. Twig rapidly became our best selling line, and remains so to this day.

Since launching our original wood earring collections, we have proudly handcrafted and sold more than half a million pairs of earrings, making Willow and Twig enduring customer favorites for nearly two decades.

In 2003, John's daughter, Lacey Schlosky, joined him in the business, working alongside her father to help grow the company and carry his vision forward. In 2017, Lacey purchased the business and has proudly continued to lead it ever since, remaining committed to the creativity, quality craftsmanship, and family values on which the company was founded.

From our family to yours, thank you for supporting American craftsmanship and small business. We hope you enjoy these creations as much as we enjoy making them.

Minimum Order is $150.
Turnaround time is up to 10 working days.

Our products are made of wood which has grain, knots, and other natural markings. While we attempt to use the clearest wood possible, our products may have unique and natural variations.
